

# FLIGHTLINE FREE FALL RIDE

---

## FlightLine is a revolutionary free fall ride for thrilling, high throughput descents

Get ready for a new kind of free fall experience that takes jumpers to heights never before dreamed. What makes FlightLine different from other free fall options, like bungee jumping, is a soft catch for rider comfort, built-in redundancy to mitigate risk and an extensive, true free fall sensation for extreme thrills.

### KEY BENEFITS

- **Redundant system** designed to mitigate risk
- **Higher throughput** compared with other free fall systems
- **Low maintenance** and upkeep
- **Staged universal braking system** provides a consistent experience for a wide variety of rider weights, ranging from 34-113 kg (75-250 lbs)
- Uses our **patented magnetic braking technology** for smooth braking for all riders
- **Multiple mounting configurations** & RipCord options offers flexibility in jump heights and rider experience

### SPECIFICATIONS

**Dimensions:** 615 mm x 457 mm x 234 mm (24.2 in x 18 in x 9.2 in)
